

**APPLICATION FOR GROUND RADIO STATION
AUTHORIZATION IN THE AVIATION SERVICES****GENERAL INSTRUCTIONS**

- **CORRECT FORM** - Use this form to apply for ground station authorization in the Aviation Services when requesting a new license, modifying and/or renewing an existing license, or requesting an assignment of a station currently authorized to someone else.

Do not use this form to apply for Civil Air Patrol station authorization. Use FCC Form 480.

- **NUMBER OF APPLICATIONS** - Submit separate applications if you are applying for a ground mobile station license and a fixed point station license. Exception: When applying for an Aeronautical Enroute and associated Aeronautical Fixed Station, submit only one application.

- **FCC RULES** - Before this application is prepared, applicant should refer to the applicable part of the Commission's Rules. If you wish to purchase FCC Rules, CFR 47, (Part 80 to end), contact the Superintendent of Documents, Government Printing Office, Washington, DC 20402, or you may call (202) 512-1800 for the correct price.

- **FEES** - Each application in the Aviation Ground Services must be accompanied by a fee. See the Wireless Telecommunications Bureau Fee Filing Guide for the correct amount. DO NOT SEND CASH. Checks or money orders must be made payable to FCC. Additional information concerning fees may be obtained through the FCC Consumer Assistance Branch, Gettysburg, PA at (800) 322-1117 or (717) 338-2500.

- **MAILING APPLICATIONS** - Mail your completed application, with fee, to:

Federal Communications Commission
Aviation Ground Service
P. O. Box 358260
Pittsburgh, PA 15251-5260

- **FEE EXEMPTIONS** - Eligibles filing as Civil Air Patrol or as governmental entities are exempt from the fee requirement. Mail your application to:

Federal Communications Commission
1270 Fairfield Road
Gettysburg, PA 17325-7245

INSTRUCTIONS FOR COMPLETING SELECTED ITEMS

ITEM 1, Individual - Enter the individual's last name, first name, and middle initial. Individuals doing business as (DBA) a firm or trade name (sole proprietorship), enter both the individual's name and the firm or trade name.

Corporation - Enter the corporate name only as it appears in the Articles of Incorporation. Do not apply in the name of a division of the corporation.

Unincorporated Association - Enter the name of the association as it appears in the Articles of Association or By-Laws.

Governmental Entity - Enter the name of the Governmental Entity having legal jurisdiction over the station, e.g., City of New York, State of Maine. Do not apply in the name of a department, commission, or other arm of the governmental entity.

Partnership - Enter business name, if any. In all cases, the names of all partners must be listed. If more space is needed, use Page 3, item 43 of the application.

ITEMS 2 - 5. Enter the applicant's permanent U.S. mailing address.

ITEM 6. Enter the call sign of the station to be modified or renewed, if applicable.

ITEM 7. Enter the appropriate Fee Type Code for this application. See the Wireless Telecommunications Bureau Fee Filing Guide.

ITEM 8. Enter the number of stations as the Fee Multiple. Normally, the Fee Multiple will be "1", unless you are filing for an Aeronautical Enroute and associated Aeronautical Fixed Station, in which case the Fee Multiple will be "2".

ITEM 9. Enter the amount of the Fee Due. To determine the Fee Due for this application, multiply the Fee Multiple (item 8) by the amount associated with the Fee Type Code (item 7). See the Wireless Telecommunications Bureau Fee

Filing Guide or FCC 1070-G for the fee amount and Fee Type Code.

ITEM 12a. Enter the appropriate class of station code from the following table:

AF SERVICE:

| CODE | CLASS OF STATION |
|------|--------------------------------|
| AX | Aeronautical Fixed |
| FA | Aeronautical Enroute |
| FAA | Aeronautical Advisory (Unicom) |
| FAB | Automatic Weather Observation |
| FAC | Airport Control Tower or RCO |
| FAS | Aviation Support Instructional |
| FAT | Flight Test |
| FLU | Aviation Support Service |
| MFL | Aeronautical Multicom |

AA SERVICE:

| CODE | CLASS OF STATION |
|------|--------------------------------|
| SAR | Aeronautical Search and Rescue |
| MOU | Aeronautical Utility Mobile |
| AOX | Operational Fixed |

AR SERVICE:

| CODE | CLASS OF STATION |
|------|-----------------------------|
| RLA | Aeronautical Marker Beacon |
| RLB | Aeronautical Radio Beacon |
| RLD | Radar/Radar Test |
| RLG | Glide Path (Slope) |
| RLL | Localizer |
| RLO | Omnidirectional Radio Range |
| RLT | Radionavigation Land Test |
| RNV | Radionavigation Land |
| ELT | ELT Test |

NOTE: Where appropriate, follow each code with a "1" for Mobile operations; "2" for Temporary operations; or "3" for Itinerant operations.

ITEM 12b. Enter the appropriate Radio Service code from the following table:

| CODE | RADIO SERVICE |
|------|--------------------------|
| AF | Aeronautical and Fixed |
| AA | Aviation Auxiliary Group |
| AR | Aviation Radionavigation |

FOR THE FOLLOWING CLASSES OF STATIONS, SUPPLY THE INDICATED SUPPLEMENTAL INFORMATION ON PAGE 3 OF THE APPLICATION FORM:

AERONAUTICAL ADVISORY (UNICOM). A NOTIFICATION OF YOUR INTENT TO FILE THIS APPLICATION MUST BE MADE IN WRITING, WITHIN 10 DAYS PRECEDING THE FILING OF THE APPLICATION, TO THE OWNER OF THE LANDING AREA AND TO EACH AVIATION SERVICE ORGANIZATION AT THE LANDING AREA. In a supplemental statement, give the name of the owner of the landing area, the date the owner was notified, the names of all aviation service organizations at the landing area and the date they were notified. Note: A supplemental statement is required at uncontrolled (non-towered) airports only.

AERONAUTICAL MULTICOM. Station authorization will be granted only to those applicants showing a need for communications in accordance with the Scope of Service for this class of station as set forth in the Commission's Rules, Part 87. Each application must include a statement of the purposes for which communications are needed.

FLIGHT TEST. Station authorizations are granted only to manufacturers of aircraft or major aircraft components; or to a parent corporation or its subsidiary if either is a manufacturer of aircraft or major aircraft components. A statement must be made showing the applicant's eligibility. If the radio facilities are required because of a government contract, include the contract number and the name of the government department or agency. Also attach any frequency coordination that may be required.

AVIATION SUPPORT-INSTRUCTIONAL. Station authorizations are granted only to FAA authorized flying schools and persons engaged in soaring activities. A statement of eligibility must accompany the application.

AVIATION SUPPORT-SERVICE. Each application must include a statement of eligibility indicating that the applicant is the operator of the airport or an aviation service organization located on the airport.

AIRPORT CONTROL TOWER, (RCO), AUTOMATIC WEATHER OBSERVATION and RADIONAVIGATION. The Federal Aviation Administration (FAA) must be notified that this application is being submitted. Notification to the FAA must be made concurrently with the filing of this application. Complete items 41a and 41b accordingly. Applications submitted without the required FAA notification will be returned to the applicant without action.

ITEM 13. Check the purpose for filing the application. If requesting authority to operate a station presently authorized in the name of another person, check "Assignment of Authorization", and submit a completed FCC Form 1046. FCC Form 1046 must be completed by the existing licensee. As a substitute for FCC Form 1046, a written declaration signed by the existing licensee relinquishing all right, title and interest in the station, may be submitted.

ITEM 14. Check "YES" if a Commission grant of the proposed communications facility would be an action which may have a significant environmental effect. Such actions include:

(a) a new antenna or structure (including any appurtenances or lighting) located in a residential area, or a change to such a structure, which results in FAA imposition of a requirement or option, for high intensity white hazard lighting;

(b) facilities which are to be located in an officially designated wilderness area, wildlife preserve, or floodplain;

(c) facilities which will affect sites significant in American History;

(d) construction which involves extensive changes in surface features. Further details may be found in Sections 1.1306 and 1.1307 of the Commission's Rules.

If the answer to item 14 is "YES", submit the required Environmental Assessment (EA) along with the application. The EA includes:

(a) a description of the facilities (including height and special design features, access roads and power lines), a description of the site, the surrounding area and its uses, and a discussion of environmental and other considerations which led to its selection;

(b) the zoning classification of the site (if any) and communications with or proceedings before zoning, planning, environmental, or other local, state, or federal authorities on matters relating to the environmental effect;

(c) a statement as to whether construction of the facilities has been a source of controversy on environmental grounds in the local community;

(d) a discussion of the nature and extent of any unavoidable adverse environmental effects perceived by the applicant and (where adverse effects are present) a discussion of any efforts made to minimize such effects and of any alternative routes, sites or facilities which have been or might reasonably be considered. Further details may be found in Sections 1.1308 and 1.1311 of the Commission's Rules.

ITEM 15. Complete ONLY if for a Mobile, Temporary, or Itinerant station.

ITEMS 16 - 17. Complete for a Fixed station. Minutes and seconds cannot exceed 59. Coordinates used must be based on North American Datum 27 (NAD 27).

ITEM 18. Complete this item only if there will be a control point, other than at the transmitter. Be specific in describing the location of control point(s), using building number coordinates, etc. If the description is otherwise the same as the transmitter site, give room number, floor, etc.

ITEM 20. This item must be completed. Transmitters must be acceptable for licensing in accordance with the applicable technical specifications set forth in Subpart D - Part 87 of the Commission's Rules. Provide FCC type acceptance number, not manufacturer's model number.

ITEM 22. Frequencies must be shown and should concur with the class of station as indicated in item 12.

ITEM 27. This item must be answered "Yes" for the following classes of station: Aeronautical Advisory, Aeronautical Enroute/Fixed, or Airport Control Tower Stations.

ITEMS 28 - 32. These items are required to be completed for Aeronautical Enroute and Aeronautical Fixed Stations when applicable. (HF frequencies only.) VHF stations complete items 28 through 30 only.

ITEM 34. This figure must reflect the height of the antenna applied for in this application, to its highest point above ground level.

ITEMS 40a - 40d. Normally, if the antenna structure is 6.1 meters (20 feet) or less in height, no notice is required to be given to the Federal Aviation Administration (FAA).

You must notify the FAA on their form, FAA 7460-1, with certain limited exceptions as set forth in Part 17 of FCC Rules and Part 77 of FAA Rules, or any of the following construction or alteration of an antenna structure:

(1) Construction of any new antenna structure, or alteration of any existing antenna structure, which would result in the top of the antenna or the antenna structure exceeding a height of 60.96 meters (200 feet) above ground level at the antenna site.

(2) Construction of any new antenna structure, or alteration of any existing antenna structure, which would result in the top of the antenna or the antenna structure exceeding the height of an imaginary surface extending outward and upward at one of the following slopes:

(a) 100 to 1 for a horizontal distance of 6.10 kilometers (20,000 feet) from the nearest point of the nearest runway of each airport with at least one runway more than 0.98 kilometers (3,200 feet) in length, excluding heliports and seaplane bases without specified boundaries, if that airport is either listed in the Airport Directory of the current Airman's Information Manual or is operated by a Federal military agency.

(b) 50 to 1 for a horizontal distance of 3.05 kilometers (10,000 feet) from the nearest point of the nearest runway of each airport with its longest no more than 0.98 kilometers (3,200 feet) in length, excluding heliports and seaplane bases without specified boundaries, if that airport is either listed in the Airport Directory of the current Airman's Information Manual or is operated by a Federal military agency.

(c) 25 to 1 for a horizontal distance of 1.52 kilometers (5,000 feet) from the nearest point of the nearest landing and take off area of each heliport listed in the Airport Directory of the current Airman's Information Manual or is operated by a Federal military agency.

(3) Any construction of an antenna structure (or any alteration of an antenna structure that would increase its height) on an airport listed in the Airport Directory of the current Airman's Information Manual.

(4) When requested by the FAA, any construction or alteration that would be in an instrument approach area (defined in the FAA standards governing instrument approach procedures) and available information indicates it might exceed an obstruction standard of the FAA.

If you intend to install towers of unusual height or at locations in close proximity to aircraft landing areas, it will be to your advantage to discuss the location and height of the antenna in detail with the appropriate FAA area office before filing your application.

ITEM 41a - 41b. These items must be completed for Airport Control Tower (RCT), Automatic Weather Observation and Radionavigation. The Federal Aviation Administration (FAA) must be notified that this application is being submitted. Notification to the FAA must be made concurrently with the filing of this application. Applications submitted without the required FAA notification will be returned to the applicant without action.

ITEM 42. This item must be completed by those filing for Aeronautical Enroute or Aeronautical Fixed Stations only. Other applicants need not certify.

ALL APPLICANTS MUST COMPLETE ITEM 44 OF THE CERTIFICATION, SIGN AND DATE THE APPLICATION.

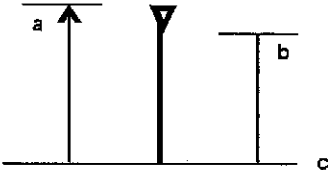

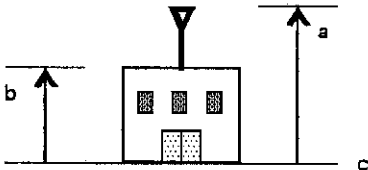

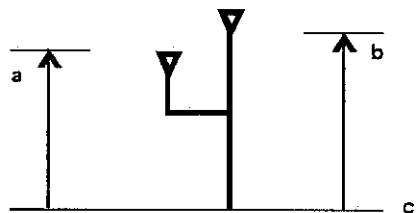

Public reporting burden for this collection of information is estimated to average one hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
